

## Latest INF World Rankings up to February 8th, 2017

Australia extends their lead as World Number One.

The INF has updated its rankings to reflect matches played between the 11<sup>th</sup> December and 8<sup>th</sup> February. This includes matches from the Quad Series between Australia, New Zealand, England and South Africa and also includes the Test Series between Wales and New Zealand.

Following this activity, there is no change to the ranking for the top 10 teams. However, Australia (1) widen the gap between themselves and New Zealand (2) as a result of being undefeated during the Quad Series.
